EXPERIENCE

Freelance Web and UX Designer

Self-Employed | Kansas City, MO

- Create wireframes to ensure that a website's layout is clear, easy to navigate and use, and accomplishes the website's and users' goals.
- Create personas to understand a website's target audience and ensure that the website is usable and useful to this audience.
- Design comps to determine the website's final design and confirm that the website is visually appealing and usable on all devices.

Technical Writer

Cerner Corporation | Kansas City, MO

November 2014–Present

- Write documentation using Cerner's style guide so the documentation is consistent with Cerner's brand and easy to understand.
- Create and edit UI text that is clear, consistent, and concise.
- Schedule and lead meetings to ensure that my documentation is correct, clear, and answers readers' questions.
